Chamber of Commerce Meeting.

The adjourned meeting of the chamber of commerce of the city of Jackson and county of Amador, was held in the superior court room on Monday at 2 o'clock. The particular purpose of this meeting was to perfect the organization by the election of a board of seven directors.

The meeting was called to order by president C. P. Vicini. Communications were read from various points, congratulating the people of Jackson upon this step in advance, and promising to aid the movement in every possible way. The communications were from the State Promotion Committee with headquarters in San Francisco, from the Union Pacific Railroad Company, asking for literature giving information concerning Amador county as a desirable place for settlement by the homeseekers, and from several other points.

The communications were referred to the directors to be hereafter chosen.

The report of the committee of three appointed at the last meeting to suggest the names of seven persons to constitute the board of trustees for the ensuing year was then read by Dr. Gall.

Before this report was acted upon the secretary, W. H. Greenhalgh tendered his resignation as secretary, and in doing so stated that it was impossible for him to devote the time to the duties of the office that was necessary; that his duties as superintendent of schools were so arduous that they took the whole of his time. He would do everything in his power, however, to help the movement. The resignation was regrettably accepted.

The committee then reported, recommending the following as directors for the first year: C. P. Vicini, A. Ginoecchio, F. W. Rusher, J. S. Garbarini, C. G. Heiser, D. N. Mason, and Fred Rabb of Sutter Creek. The report was thereupon received and the committee discharged. The president then said other nominations were in order. Anyone present was at liberty to nominate any person outside of the list. They however seemed acceptable to all. So a motion was made that the report be adopted as read, and it was carried unanimously. The men named are therefore the regularly elected directors for the first, or until the annual meeting in July, 1910.

Remarks were made setting forth the good that may be done by an energetic campaign, by C. P. Vicini, Dr. Gall, Thomas Corra, W. H. Greenhalgh and others and the meeting thereupon adjourned until the next regular meeting on the second Wednesday in July, at 8 p. m. in the superior court room.

The directors met Monday evening and organized by electing the following officers for the ensuing year: C. P. Vicini, president; Fred Rabb vice president; C. G. Heiser, secretary; and A. Ginoecchio, treasurer. The secretary was empowered to obtain all necessary books.

Messrs Garbarini, Mason and Rabb were appointed auditing committee.

The secretary was instructed to inquire about letter heads and other office stationery, and report to the board at a meeting to be held next Monday.

The Big Platform.

The initial dance on the huge platform erected for the fourth of July celebration in Jackson was given Saturday evening. The boys had to work like trojans to get the structure ready for the occasion. The floor is about 150 feet, by 50 feet, by far the largest floor ever danced on in Amador county. There was a good attendance the receipts being \$66, \$25, of which went for the music, leaving a net balance of \$41. The music was rather weak for such a dance in the open air, but otherwise everything passed off in fine style, and the participants had a good time. Dancing was kept up till after one o'clock, by which time the chilly breeze from the snow-clad mountains brought wraps into requisition. It is the intention to put a covering over the floor, and inclose the walls with burlap. Another dance is announced for tomorrow night.

Order To-day!

We can save you from \$5.00 to \$10.00 on a suit or overcoat if you order now. We want to keep busy (between seasons) while others are dull.

Come in and inspect some of the most popular styles.

GEO. RAYMOND,
The London Tailor.

Grammar Grade Graduates.

The board of education completed the examination of pupils in the examination of pupils of the grammar school throughout the county for graduation diplomas. There were 82 pupils wrote for graduation, and of these 79 passed—which is the highest percentage in the history of the county. Lola Harmon, of New York Ranch school, 15 years of age, secured the highest number of credits, 98 1/4 per cent. The class was distinguished in another respect, namely, that the first pupil of Chinese parentage succeeded in graduating. His name is Lingao Ming, 17 years of age, and a pupil of the Plymouth school, and a son of a Chinese merchant at Plymouth. He secured 85 per cent of credits. The list of graduates of the grammar grade from the respective districts is given as follows.

Jackson—Nelly Dorpan, Julia Foppiano, Laura V. Parker, Eva L. Dettis, Bertha M. Laswell, Russell Seymour, Lydia B. Morrow, Ortense V. Guerard, Helen E. Nicholas, Carleton Smith, Frank A. Cuneo, Leon C. Schwartz, Eugene T. Boro, Edward J. Muldoon, John Love, Maude McGary.

New York Ranch—Curtis McFarland, Linda Trabucca, Lola Harmon. Onieda—Charles Raggio, Eva T. Perano, Inez A. Fassero.

Aetna—Nelson W. Vela. Milligan—Lozla V. Beauchemin. Stony Creek—Mayme E. Brown. Clinton—Roma R. Quirolo.

Drytown—Fred N. Labadie. Pigeon Creek—Bessie E. Neff, Laura E. Warren.

Williams—Alva M. Bell, Clyde E. Ball, Ralph W. Crain, Chester E. Watson.

Plymouth—Lengae Ming, Hazel Easton, Annie E. Roberts.

Willow Springs—Phydella E. Brown.

Forest Home—Elsie Johnson.

Gilbert—Beatrice Morrow.

Volcano—Harry B. Liversedge, Ola G. M. Werly, Irma P. Joyce.

Sutter Creek—Sadie May Bawden, Rita Onetto, Matilda A. Foppiano, Rose M. Batto, Augustus Profumo, Hazel V. Hodgas, Donald Obrade.

rich, Hazel R. McCandless, Daniel L. Batto, Thomas L. Madden, Mildred J. Bawden, Donald S. Jarvis, Emma J. Parsons, Louis Maletesta, Gladys E. Stribley, Lillie L. Jones, Lawrence C. Hyler.

Amador City—Emily R. Rojas, Henry Nicholas, Olive Venning, Jacob P. King, Henrietta Perryman, Alma C. Cuneo, Sybilla M. Jones.

One—Ira W. Galehouse, Frank Carpenter, Clair Heffren, Thos. R. Greenough, Lillie Salzgeber, Hattie King, Irene Violet Eunice Yager, Gertrude R. Tonzi.

Jackson Valley—Thos. G. Cook, Hester Suthiff, Elsworth Alford.

Buena Vista—Gertrude A. Dukens.

Wallace Chitwood.

Union—Osson Olson, Oxel Olsen.

Could not be Better

No one has ever made a salve, ointment, lotion or balm to compare with Bucklen's Arnica Salve. Its the one perfect healer of cuts, corns, burns, bruises, sores, scalds, boils, ulcers, eczema, salt rheum. For sore eyes, cold sores, chapped hands its supreme. Infallible for piles. Only 25c at Spagnoli's Drug Store.

D. L. Donnelly Married

The Bee of Monday says: Daniel Lee Donnelly, better known as Lee, former corporation counsel of Sacramento, was married quietly Saturday at Marysville to Miss Julia E. Danforth, by Rev. A. L. Mitchell of the Episcopal Church. Donnelly had quite a little experience in securing his marriage license. He was willing to go sponsor as to the age of the bride, but as she was not present the County Clerk of Yuba would not take Donnelly's word for it and declined to issue the license until the young woman was present. Donnelly had to go and hunt her up before he could get the license. He gave his age as 36 years and that of the bride was given as 26. Both were residents of Sacramento. Mr and Mrs Donnelly returned to Sacramento last evening and are now at the Donnelly residence, 1525 N. Street.

Lee Donnelly is a native of Sutter Creek, and a son of the late Dan Donnelly, a former supervisor of this county. He practiced law in Jackson prior to his removal to Sacramento some ten years ago.—Ed. Ledger

There are many imitations of DeWitt's Carbolicized Witch Hazel Salve—DeWitt's is the original. Be sure you get DeWitt's Carbolicized Witch Hazel Salve when you ask for it. It is good for cuts, burns and bruises, and is especially good for piles. Sold by City Pharmacy, F. W. Rucker, prop.

The Fourth of July

The day of the **Big Celebration** of the Southern Mines in Jackson, is at hand and since we are now located in our new roomy store where we are able to accommodate our trade to satisfaction we have decided on, and with pleasure announce a reduction on most desirable goods for the occasion. We also wish to announce to the public at large that our

Shoe Department

will be the best, largest and best equipped Shoe Department in Amador county for Ladies', Gent's and Children's shoes. We will spare no effort in obtaining the best money can buy for the benefit of our trade. Come and look over our line of shoes before buying elsewhere, and you will be convinced that you are in the right place where you can get all that you desire in shoes. **Comfort, Style and Good wear at Popular Prices.**

DRY GOODS

Our entire line of Fancy and White Lawns is reduced accordingly to **5, 7 1-2 8 1-3, 9, 12 1-2** and **15** cents per yard.

Pongees from 35c up.

A brand new line of white undershirts and corset covers just arrived, to be sold at popular prices.

CORSETS

We have just received a new line of R. G. Corsets, a larger assortment than ever, from 75c to \$5.00. We have all sizes and you can all be fitted.

Our line of **Ladies' Sleeveless Undervests** is now larger than any previous season. We also have Children's Sleeveless Undervests.

Talk about **Gent's Furnishings!**

We are now better equipped than ever before.

SUIT CASES

We have a swell assortment of leather and matting cases at popular prices.

A complete shoe department to fit every man, woman and child. Come and be fitted.

The RED FRONT JACKSON'S ONE-PRICE STORE.

MINING NOTES.

Banker Hill.—The usual monthly dividend of three cents per share was paid on the 15th, making the 33rd dividend. Notwithstanding the interruption of work caused by the strike, the company was able to pay the stockholders the regular amount, without drawing upon the surplus to any serious extent. Everything is running in good shape. The mill is kept going to its full capacity, with all reserve ore chutes again full so as to tide over any emergency that may arise. The underground developments are very encouraging. A pay ore shoot has been opened up in the south drift of the 1553 level. In the levels above this ore body was of too low a grade to pay. At the 1550 level it assays between 85 and 86 per ton, which will leave a handsome margin over running expenses. And there is a large body of it. The ledge is about eight feet thick, and has been followed for a distance of 70 feet, with the end of the chimney not yet in sight.

Defender.—At this mine the cyanide plant, consisting of eleven tanks, was ready to be started yesterday. It is the most elaborate effort at cyaniding the tailings from the mines east of the main belt that has been tried in this county. We are informed, however, that it is not the first effort at cyaniding on the eastern mineral belt. It has been tried years ago in another mine above Volcano, and with fair success according to report. It is hoped by this process to save from 75c to 81 per ton more net, than by ordinary milling, and this difference will aid materially in the development of the mining industry in the eastern section. It is earnestly hoped that the expectations of the owners may be fully realized.

Fremont.—The mill is kept running to one-half the capacity of its 40 stamps. Sinking is in progress, and this is the reason for the mill running light. It is expected that everything will be running full blast again in a short time.

Keystone.—A report is current that this mine has been sold, and that it has been purchased by a syndicate. The mill has been running for some weeks, pending negotiation for sale of the property. There is but one opinion among mining men as to the future of the Keystone, namely, that with proper development work the mine will respond as liberally in the output of the precious metal as at any previous time in its history. The Keystone is a comparatively shallow mine, the deepest point worked being less than 1500 feet.

NEW MAIL ROUTE.

The post office department is calling for proposals for a through mail line from Jackson to Plymouth. The inconvenience of the present mail facilities along the mineral belt has long been a source of complaint. Public attention has been repeatedly called to the matter, pointing out the absurdities of the existing system. A letter from Jackson to Plymouth, 14 miles, has to travel 75 miles to get there. From Drytown to Amador, 4 miles, it requires a journey of 75 miles to get to its destination. Sometime ago a post office agent was through here, traveling over the route from Jackson to Plymouth, and of course became conversant with the flaws of the mail arrangements as they now stand. The result is the department is now calling for proposals for a direct line from Jackson clear through to Plymouth. Bids will be received by the second assistant postmaster general at Washington until July 13, and the contract is to be let for one year, from July 26, 1909 to June 30, 1910.

The route is from Plymouth, by way of Drytown, Amador City, Sutter Creek and Martells to Jackson, 12.23 miles and back seven times a week. The time schedule is set forth as follows: Leaves Plymouth daily at 5 a. m.; arrives at Martell by 8:20 a. m.; leave Martell at 8:55, arrive at Jackson 9:35. Leave Jackson at 3:45 p. m, arrive at Martell 4:25; leave Martell for Plymouth etc. on receipt of mail from train but not later than 6:30 p. m; arrive at Plymouth in 3 hours and 20 minutes. It is thought that this new service will cut out the line from Carbondale to Plymouth. The time schedule is in accordance with the arrival and departure of the train at Martell, somewhat inconvenient for the local travel between the towns on the Mother lode. The new contract will no doubt do away with the present contract of carrying the mail between Martell and Amador City. This is done by the Amador Central Railroad, but the company is ready to relinquish whenever other arrangements can be made. Carrying the mail from Martell to Jackson in the evening on arrival of the train, and from Jackson to Martell in the morning to connect with the train will not be interfered with. The service will continue to be done by stage owned by the railroad company as at present.

The biggest clubbing offer ever made—Amador Ledger and Bulletin—leading evening paper of San Francisco, only \$3.

DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so

Deeds—Ada M. Burgen et al to Alessio Dalporo, 156.73 acres in 6-7-11, \$10.

Mortgage—Frances D. Williams to Charles Soracco, lot 6 block 7, Sutter Creek, \$500, for one year with interest at the rate of 9 per cent per annum.

Geo. W. Locke et ux to Geo. W. Locke & Son, a corporation, 320 acres in 34-7-9, no consideration.

George Bayha to John Trusecott, 243.49 acres in 33-7-11 and 4-6-11, \$10.

Attachment.—The Pacific Lime & Plaster Co., files an attachment against the Amador Marble Co., affecting 160 acres in 6-7-11 including a ditch and improvements; demand, \$2610.44.

Certificate of Redemption—George W. Locke and son upon 120 acres in 34-7-9, taxes of 1907, \$19.86.

George W. Locke and son upon 200 acres in 34-7-9, taxes of 1907, \$35.97.

John McIntire upon North Star quartz mine in 6-6-11, taxes of 1906 and 1907, \$21.35.

W. H. Lesley upon 160 acres in 2-7-13, taxes of 1888, \$24.97.

Patents—U. S. to David Grounds, 36.73 acres in 6-7-11 as agricultural land.

U. S. to David Grounds 120 acres in 1-7-10 as agricultural land.

Taxpayers Notice

Timber land will be assessed at 85 per acre.

Give in your assessment by June 1st, so I can close the rolls.

Road and poll taxes due. Delinquent July 1st, after which it will be \$3 each.

CLARENCE E. JARVIS, Assessor

Children Cry FOR FLETCHER'S CASTORIA

Amador County Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

Climate.—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

Gold Mining.—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers to-day one of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or talc—all undeveloped.

Agricultural Capabilities.—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive; also all kinds of vegetable are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for many times the quantity now raised of these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for a large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 12000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 2500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Drytown, Plymouth, Volcano, Pine Grove and Oleta. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

The assessment roll for 1907 is \$5,800,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—is located four miles from Jackson.

THE KANGAROO GIRL.

Her features are peachy, her eyes are bright,
Her lips are for kissing that clasp and woo,
Her neck is a carving of creamy white,
But why does she walk like a Kangaroo?

Her hair is a midnight of maddening joy,
Her form is a Psyche's, and swains would sue,
And Cupid would capture, the wise young boy,
Except that she walks like a Kangaroo!

Her mother, I think, doesn't know she's out,
For mothers are wise and discreet and true,
And if they but knew what their girls are about
Not one would thus walk like a Kangaroo!

—Robertus Love in Judge.

Husband—My dear, are you not courting trouble by being so friendly to this young man?
Wife—No, my dear. I have already married it.—Meggendorfer Blatter.

His Shrewd Idea.

"Who is the sour looking girl with the heavy underjaw?"
"That's the only daughter of old De Milyuns."
"And who is the dainty bit of sweetness with the blue eyes and golden hair?"
"That's the chaperon."
"What's the explanation?"
"Why, it's old De Milyuns' clever idea. He thinks his Jane will be perfectly safe as long as Miss Blossom is around."—Cleveland Plain Dealer.

Equine Repartee.

"Those lovelorn couples always hire you to draw their cutter sleighs?" remarked the truck horse.
"Yes," laughed the old white nag, "but it seems to me instead of being attached to a sleigh I belong to an automobile."
"Automobile? Why so?"
"Well, when I draw those lovelorn couples ain't I a 'sparkling plug'?"
"And the horse laughs that echoed through the stable awakened the drowsy hostler."—Chicago News.

Friendly Advice.

"If I ever marry," said the bachelor who was beginning to be old, "I shall be careful to pick out a lady whom I can treat as my equal."
"Oh, say, old chap," answered the married man, "I wouldn't do that if I were you. I can tell you from experience that a woman who would submit to such treatment wouldn't be worth having around the house."—Chicago Record-Herald.

Why He Ate It.

"Jane, there was a whole pie in the pantry. What became of it?"
"My young man called on me last night, ma'am."
"And did he eat all that pie?"
"He was forced to, ma'am. There was so very little variety to choose from, ma'am."—Cleveland Plain Dealer.

Neighborly Inquiry.

"My husband never fails when he leaves home in the morning to kiss me goodby."
"Don't you ever have the fear that his heart may not soften enough during the day to make him come back again at night?"—Washington Star.

Possible Breakdown.

Pearl—Her father heard she was going to elope in an automobile, and he was furious.
Ruby—Indeed!
Pearl—Yes; he said automobiles could not be trusted. Advised her to elope in a cab.—Houston Post.

Wanted—An Opportunity.

Young Wife—Don't you admire a man who always says the right thing at the right time?
The Spinster—I'm sure I could if I ever have the pleasure of meeting such a man.—Chicago News.

Why Else?

She—Why do they refer to locomotives as "she?"
He—I suppose it's on account of the trains they drag.—Chaparral.

Undoubtedly.

"Why, oh, why, are some people so strident?"
"Because some others are so shiftless."

A TURNER MASTERPIECE.

Origin of the Painter's Famous "Rain, Steam and Speed."

Of all pictures by the great English color poet, Turner, none is more popular than that which now graces the London National gallery under the name of "Rain, Steam and Speed," which was first exhibited in 1844. It is impossible to reproduce this adequately.

Concerning the origin of this picture Ruskin furnishes an interesting tale. The story was told to him by a friend, Lady Simon. It seems that she was traveling one night in the early days of the Great Western railway from Exeter to London. "When I had taken off my coat and smoothed my ruffled plumes and generally settled myself," she tells, "I looked up to see the most wonderful eyes I ever saw, steadily, luminously, clairvoyantly, kindly, paternally looking at me. The hat was over the forehead, the mouth and chin buried in the brown velvet coat collar of the brown greatcoat. Well, we went on, and the storm went on more and more until we reached Bristol, where we waited ten minutes. My old gentleman rubbed the side window with his coat cuff, in vain. He attacked the center window, again in vain, so blurred and blotted was it with the torrents of rain. A moment's hesitation and then, 'Young lady, would you mind my putting down this window?'

"Oh, no not at all."
"You may be drenched, you know."
"Never mind, sir."

"Immediately down went the window and out went the old gentleman's head and shoulders, and I said, 'Oh, please let me look.'"

"Now, you will be drenched," he remonstrated. But he half opened the window for me to see. Such a night! Such a chaos of elemental and artificial lights and noises I never saw nor heard. He drew up the window as we moved on. I leaned back for some minutes with closed eyes, then opened them and said, 'Well, I have been drenched, but it was well worth it.'"

"He nodded and smiled and again took to his steady but inoffensive perusing of my face. The next year, I think it was, going to the academy, I turned at once, as I always did, to see what Turners there were. Imagine my feelings! There stood written 'Rain, Steam and Speed, Great Western, June, 1843.' I had found out whom the seeing eyes belonged to. As I stood looking at the picture I heard a mawkish voice behind me say:

"There, now, just look at that! Ain't it just like Turner? Who ever saw such a ridiculous conglomeration? I turned very quietly round and said: 'I did. I was in the train that night, and it is perfectly and wonderfully true.' After that I walked quietly away."—Helen Zimmern in Metropolitan Magazine.

Special Small Ads.

Advertisements under this head, not exceeding 5 lines, will be inserted at 50c per month, or 5 cents per line for less than one month.

For Sale.—Horse, buggy and harness. Horse is good either single or double. Buggy and harness in good condition. Will be sold cheap. For particulars apply to
A. H. Steffen,
Amador City, Cal.

For Sale.—218 acres of good agricultural and grazing land, at Forest Home. Thirty acres timber land, with at least 1000 cords live black oak. For full particulars apply on premises, or to John Oulds, Jackson, Cal. my 7-t f

Wanted.—A solicitor to secure orders for the tailoring business. Good salary to the right man, and steady employment. Apply to Wm. Ross, the Tailor, Jackson. x

BIBLE STUDY CONTEST.

Suggestive Questions on the Sunday School

Lesson by Rev. Dr. Linscott for the International Newspaper Bible Study Club.

(Copyright, 1909, by Rev. T. S. Linscott, D.D.)

Verse 12—Can you mention a single nation, or tribe, or people in the past, or the present, that has not believed, or does not believe, in life after death in some shape.

April 18—Acts ix: 1-30. The Conversion of Saul. Golden Text. Acts ix: 4. He fell to the earth and heard a voice saying unto him, Saul, Saul, why persecutest thou me.

Verses 1, 2—HOW do you account for Saul's hatred for Christians before his conversion, and that after he became a Christian he showed such a spirit of love toward those who were not Christians? (This question is to be answered in writing by members of the club.)

April 25—Acts xi: 19-30; xii: 25. The Gospel in Antioch. Golden Text. Acts xi: 26. The disciples were called Christians first in Antioch.

Verses 23, 30—Should the church of Christ to-day be a practical brotherhood, caring for one another, and helping each other financially, and in every other way as the need may be.

May 2—Acts xiii: 1-12. Paul's First Missionary Journey—Cyprus. Golden Text. Mark xvi: 15. Go ye into all the world and preach the gospel to every creature.

Verse 3—It is clearly the duty of the present day church to send missionaries to foreign countries and into new districts: is it equally the duty of all men to help support such missionaries.

May 9—Acts xiii: 13-52. Paul's First Missionary Journey—Antioch in Pisidia. Golden Text. Acts xiii: 49. The word of the Lord was published throughout all the region.

Verse 14—If a professed Christian does not attend church, and act like a Christian when away from home, is he a real Christian when at home, no matter how he may act when there.

May 16—Acts xiv: 1-28. Paul's First Missionary Journey—Iconium. Golden Text. Pa. xvi: 5. All the gods of the nations are idols; but the Lord made the heavens.

Verses 1, 2—Was the unbelief of the Jews a matter of the intellect through lack of evidence; or was it a matter of the heart; that is, a result of their rebellion against God.

May 23—Acts xv: 1-35. The Council at Jerusalem. Golden Text. Acts xv: 11. We believe that through the

grace of the Lord Jesus Christ we shall be saved, even as they.

Verses 6-17—is actual experience of God, and his dealings with us, conclusive proof of the will of God in the matters which the experience covers.

May 30—Jas. ii: 14-26. Believing and Doing. Golden Text. Jas. ii: 20. Faith without works is dead.

Verse 14—Can a man have true faith in God if he is not filled with love to his fellows, and doing all he can to help them.

June 6—Jas. iii: 1-12. The Power of the Tongue. Golden Text. Prov. xxi: 23. Whoso keepeth his mouth and his tongue keepeth his soul from troubles.

Verse 2—Is the control of the tongue the key of the control of the entire man. Give your reasons. June 13—Heb. xi: 14. Faith is the substance of things hoped for, the evidence of things not seen.

Verses 1-3—If a desirable thing is firmly possessed by faith, does that give as much, or similar satisfaction as the possession of the thing itself.

Lesson for Sunday, June 27th, 1909.—Temperance Lesson Rom. xiii: 8-14.

June 20th, 1909. Review. Golden Text—With great power gave the apostles witness of the resurrection of the Lord Jesus. Acts iv: 33.

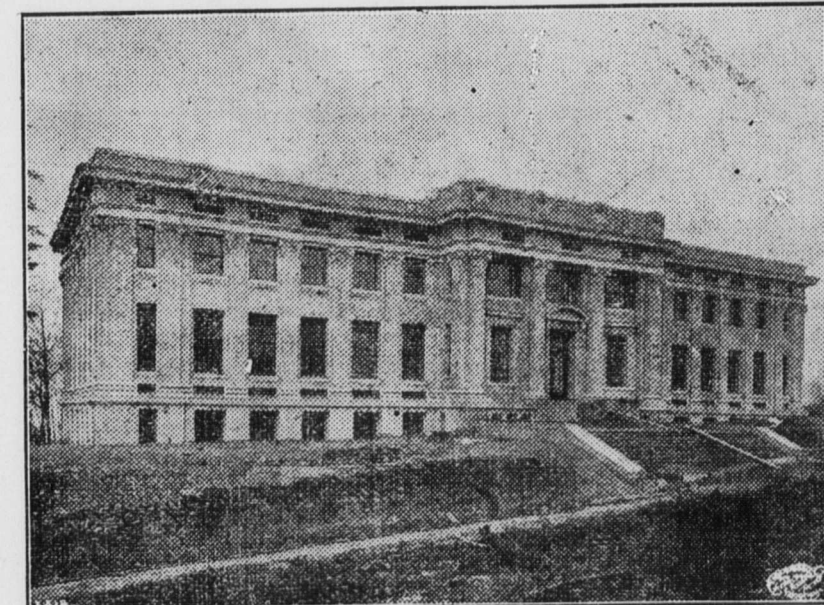

The following review is planned for all who are taking up these Bible Studies, whether having actually studied the eleven lessons here reviewed or only a part of them. Even if this is the first lesson which has captured a reader's attention it can be made a profitable lesson in itself.

The date and title of each lesson, and where found, the Golden Text and one question for each lesson follow:

April 4—Acts x: 1-48. Peter and Cornelius. Golden Text, Acts x: 35. In every nation he that feareth Him, and worketh righteousness is accepted of Him.

Verses 1, 2—Can you give a good reason why God to-day, is not as well pleased with a devout Roman Catholic as he is with a devout Protestant, or vice versa.

April 11—1. Cor. xv: 12-28. Easter Lesson. Golden Text. 1. Cor. xv: 20. Now is Christ risen from the dead, and become the first fruits of them that slept.

WHERE WORLD'S WORKS OF ART WILL BE HOUSED AT A-Y-P. EXPOSITION, SEATTLE.

In this building will be exhibited many priceless paintings. The display will represent the art galleries of the world, for many of these pictures will be the work of the old masters, including rare art exhibits from the Corcoran in Washington, the Art Museum in New York, the Chicago Art Institute and from a large number of private galleries of wealthy men in the United States and Europe, who have for years made the collection of famous old paintings their hobby. Paris and London have made large loans.

At the Alaska-Yukon Pacific Exposition the selection of pictures will be limited to the works of men who have been recognized in the great art competitions in all parts of the world. Many American artists will be represented in the display in the Fine Arts Palace at the Exposition and arrangements have already been made for the shipping of these valuable paintings from art institutes of this country to Seattle.

G. L. Berg, art director of the Exposition, has visited all of the leading galleries of the United States, collecting the pictures suitable for display at Seattle, and writes that the pictures already loaned will constitute one of the greatest art displays assembled for international exhibition.

The Fine Arts Building is a fireproof structure and was one of the first buildings completed on the Exposition Grounds. It cost more than \$200,000 to erect the building.

Cupid and my Campaspe played
At cards for kisses. Cupid paid.
—London Chronicle.

An Irish Compliment.

An Irish gentleman said to an English officer, "Do you know Mr. X. of —?" The officer disclaimed having that pleasure. "Ah, he is a very nice fellow and a good friend of mine. But he has been dead these six years. An', shure, you're very like him!" The officer said he had been compared to a good many things in the course of his lifetime, but never before to a six-year-old corpse.—London Spectator.

Sometimes you may be told that there are other things just as good as DeWitt's Kidney and Bladder Pills. That isn't so. Nothing made as good as DeWitt's kidney and bladder pills for all ailments of the kidney or bladder, which always result in weak back, backache, rheumatic pains, rheumatism and urinary disorders. A trial of DeWitt's Kidney and Bladder Pills is sufficient to convince you how good they are. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by City Pharmacy, F. W. Kuster, prop.

A daily paper—Bulletin—and Amador Ledger for \$3 in advance.

FROM OUR CORRESPONDENTS

DEFENDER.

June 14.—The weather has been pleasant this week; cool mornings and evenings. Thursday the north wind was blowing, which causes the grain to ripen very fast. Harvesting is going on with a rush. Some of the neighbors are hauling in their hay.

Charley Glenn and wife passed here Monday on their way to Sutter Creek with a load of household goods for Mrs. Caseas, who is now living in Sutter Creek. She has been under the care of Dr. Goodman, as she has been sick for some time. Mrs. Caseas is much improved in health, and will sell tomatoes in Sutter Creek. We wish her success in her business.

Charley Glenn returned home Tuesday with a load of furniture for W. H. Glenn.

A number of Defender's boys, who left with Alex Adams for Tuolumne county to work on a contract for railroads ties, returned saying Amador county was good enough for them.

Miss Byra Porter is going to the county seat to take examination.

Mrs. Redenbaugh has returned to the home of her parents, Mr. and Mrs. Porter. She was staying with grandma Strinaman, who is old and feeble. She lives in the Strinaman ranch for the summer.

L. H. Cook's six horse team came down from the station Friday after a load of hay from J. P. Harkers barn. Dan Bowen is driver.

Lee Nichols and the Werly boys came home Saturday evening, and returned to Cook's station Monday to cut logs.

Inez Nichols visited Mrs. Wait Davis Sunday.

John Rader has moved to Ham's station intending to run the station for the summer.

One camping outfit has passed here showing that tourists will soon be going to the lakes.

Dr. Endicott passed Defender recently on his way to West Point bridge to see Mrs. Will Marchand, who was taken ill very suddenly.

N. C. Williams has been seriously ill for a few days. He is now able to attend to his work. He came to meeting Sunday, and a number of people attended church near Pioneer school house.

Defender had a surprise several days ago. An automobile came to town—the first one that ever came here. Some mining men came in the machine.

Several of Defender's base ball boys went to Jackson's ball game and were beaten for the first time this season.

Len Harmon has been prospecting in this vicinity without success, so he left bag and baggage for the mountains, where he hopes to have better luck.

Report says the Wite mine, near the Dennis Kelley place, will be worked in the near future.

Cory McKenzie and wife have their vacation, and are visiting with his mother and family.

Fayette Mace jr. has gone to Lone to bring his family up to his mountain home for the summer season.

Mrs. Charley Strinaman was organist Sunday at our church.

Busy Bee.

AUKUM.

June 14.—Henry Steel, for a long time an invalid, died in Oleta on Monday about seven o'clock. Little is known of his antecedents and no one seems to know whether he has any relatives living, and if so where. In a conversation a few months ago he told me he was, if I remember rightly, a native of Pennsylvania. He told me last summer he was past 68, and had varied his occupation at mining and mill building. For more than fifteen years he built mills and mined in Idaho and Montana. He said he was personally acquainted with the late Marcus Daley, and W. H. Clark, the millionaire copper men. I think he was of German extraction, rather reserved. He said he was a millwright by trade and had built many mills in Idaho and Montana on contracts. He had a mania for mining and followed it with varied success, sometimes making, sometimes losing. He had a chronic affection of the spine that made him for several years almost helpless at times. For the past year or so he has been a ward of the county and was kept alive through its generosity. The old man sleeps the sleep of death. No gorgeous burial will be received, but in a plain old fashioned coffin his remains will be laid to rest, you might say in the potters' field, with no one to attend it, no flowers

Children Cry
FOR FLETCHER'S
CASTORIA

to bloom over it, but in its wildness and solitude will be sleep for ever. We can only say requiescat in pace be unto him where the wild winds sing a requiem over his departed soul.

Giddy Dick.

IONE.

June 17.—E. M. Swain has been busy this week putting a new roof on the warehouse of B. Hammer's store, the old one having been destroyed by the recent fire.

Fred Seguin came down from Jackson the first of the week to assist his father with the work in the store.

Mrs. Minor and Mrs. Bagley returned last Saturday from Del Monte, where they report having had a lovely time.

Wesley Gebhardt was badly hurt last Tuesday morning by falling on the brake of a wagon, but his injuries are not serious.

A number of Native Sons and Daughters of Ione took in the big time at Sutter last night, and all report having a fine time.

C. V. Violette is employed remodeling the printing office, the fire having destroyed the front doors and windows.

Geo. and Elwood Frates came up from San Francisco last Saturday, and will spend their summer vacation here. The boys were formerly residents of Ione and every one is glad to see their smiling faces again.

Elworth Adams of Oakland, is spending a few weeks visiting the home folks.

Mrs. J. P. Martin, who has been visiting in the city for a couple of weeks, returned home Sunday.

Chas. Zimmerman spent several days the first of the week visiting in the city.

Ioneite.

A Vital Point

The most delicate part of a baby is its bowels. Every ailment that it suffers with attacks the bowels also endangering in most cases the life of the infant. McGee's Baby Elixir cures diarrhoea, dysentery and all derangements of the stomach or bowels. Sold by Ruhser's City Pharmacy.

PLYMOUTH.

June 16.—Will Green of Placerville, accompanied by Miss Ida Dugan of Latrobe, are visiting relatives in this town.

Miss Jessie Clark has returned from a visit to the Morrow ranch above Oleta.

A ball game was played at Oleta last Sunday between Plymouth and Fairplay. The score stood 13 to 10 in favor of Plymouth.

Mrs. Pigeon of Oleta, accompanied by her daughter, Louise, and granddaughter, Doris, were the guests of Mrs. Steiner on Sunday last.

Miss Marie Weston, who has been visiting friends in Oleta for a few days, returned home Monday with Tom Burke.

Al. Dugan has been quite sick for the past few days.

Miss Mary Davis of Shonandoah, is quite ill, and Mrs. Long of this town went up there to work.

Mr. Nannis has put a gasoline engine in the back of the livery stable, as there is a good well there, and he will always have water when it is needed. He also talks of putting a tank on the stable as he will have water in case of fire as the water supply in Plymouth is usually limited.

Wild Roses.

Trouble Makers Ousted

When a sufferer from stomach trouble takes Dr. King's New Life Pills he's mighty glad to see his dyspepsia and indigestion fly, but more he's tickled over his new, fine appetite, strong nerves, healthy vigor, all because stomach, liver and kidneys now work right. 25c at Spangolis Drug Store.

SUTTER CREEK.

June 17.—John Raddatz, brewer, who has been seriously ill at his home for about two weeks, is still in a serious condition. A trained nurse is in attendance, and three physicians have been in consultation. Mr. Raddatz is very weak at this writing and his sister, Mrs. Ludwig of the Gwin mine, has been sent for. We sincerely hope there will be a change for the better soon.

Fred Werner and family are entertaining the three Misses Henrichsens, old friends from Iowa, who arrived here the first of the week.

Mrs. Z. Smith of Berkeley, who has been visiting her mother, Mrs. Toman, and family, for several weeks, returned to her home last Thursday. Her mother and niece, Miss Zita Tanner, accompanied her to visit in Berkeley and San Francisco a short time.

C. E. Jarvis has returned to his home here and is much improved and able to be about, but it will take some time to regain his former health.

Miss Ethel Stribley left Tuesday morning for three weeks' vacation visiting in Stockton, Niles and Berkeley.

Mrs. Gertrude Downs, Mrs. W. E. Downs and Miss Florence Odgers, were outgoing passengers Wednesday morning for a short visit in San Francisco.

Miss Clara Goldaworthy, who has been visiting friends in Sutter Creek and surrounding towns for six weeks, returned to her home in Sacramento Thursday.

Mrs. Dan Horrigan of Gaston, Nev., who has been visiting her sister, Mrs. J. W. Bawden, and family, for a month or so, left Tuesday morning en route to her home.

W. E. Proctor with his wife and little daughter, who has been visiting Mrs. Proctor's parents, Mr. and Mrs. Selari, and family, for a couple of months, returned to their home in Oakland last Saturday.

Louis Boitano and Miss Kathryn Arnes, two young people of Sutter Creek, were married in Sacramento at the Cathedral Sunday afternoon the 6th instant. They returned to Sutter Creek, the first of the week, and will make this their home in the future.

The Native Sons of Sutter celebrated the 25th anniversary of their organization Wednesday evening with a dance in Levaggi's hall. Music by the Sutter band, which were composed mostly of members of the parlor. Ice cream and cake were served in the banquet room of their fraternal hall. The affair was invitational and most pleasantly enjoyed by the invited guests as well as the Native Sons and Daughters.

George Stribley of Berkeley, who has been spending his vacation with his uncle, John Stribley, and family, returns to his home Friday morning. His cousin, Miss Gladys Stribley, will accompany him on a visit in Berkeley.

Mrs. Jane Quirolo, who has been visiting relatives in Jackson and Sutter Creek for several weeks, returned to her home in San Francisco Sunday. She was accompanied by her little granddaughter, Aileen Quirolo.

Jas. McNaughton departed Sunday morning for San Francisco, to visit his daughter, Miss Lulu, and take in the sights of the city for a week or so.

Henry Daneri, who is employed in the machine shops of the Southern Pacific at Oakland, arrived here Sunday evening to spend a week with the home folks. He will return to Oakland Sunday. J. Randolph, who has been absent from Sutter Creek for some time, arrived here Sunday evening from Nevada.

Miss Knight, who has been the guest of Mrs. Redpath for several weeks, left Sunday morning enroute to her home in Blair, Nevada.

Sutterite.

Eat What

You want of the food you need Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly.

When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

AT CITY PHARMACY, JACKSON.

"Dr. Thomas' Electric Oil is the best remedy for that often fatal disease—croup. Has been used with success in our family for eight years."—Mrs. L. Whitacre, Buffalo, N. Y.

Respectfully,
W. H. GREENHALGH,
Superintendent of Schools.

Our Guarantee

Go to your druggist today, and purchase a dollar bottle, and if you can honestly say, that you did not receive any benefits from it, after using the entire bottle, the druggist will refund your money to you without question or delay.

We will pay the druggist the price of the bottle purchased by you.

This offer applies to the large bottle only and to but one in a family.

We could not afford to make such an offer, unless we positively knew what Kodol will do for you.

It would bankrupt us. The dollar bottle contains 2½ times as much as the fifty cent bottle.

Kodol is made at the laboratories of E. C. DeWitt & Co., Chicago.

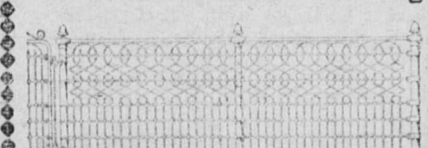

You Never Can Tell

A BANK ACCOUNT

helps to develop character in a young man. His account may be small and his weekly earnings may be its only source of growth, but though small it gives him a reputation. They speak of that rising young man. The young man with a reputation thus developed must live up to it and so he has more than reputation, he has character and such a character gives influence, better pay, makes him in demand, and very soon he works into a business of his own, gets help because of the character a bank account developed. Young man, let us help you to develop business character.

LOCAL NEWS

Charley Ruge left for Stockton last Monday morning, where he has secured employment.

August Hoff, who was jailed last week on suspicion of being implicated in the robbery of Devore's saloon in Plymouth, was liberated early in the week, there being insufficient evidence to warrant his being further held.

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 144; residence, black 394; Jackson.

Miss Elsie Michel, sister of Mrs. H. S. Tallon, and Miss Irene Freund, a niece, are visiting in Jackson for two weeks, guests of Mrs. Tallon.

John Hill, son-in-law of John Chinn, arrived from Grass Valley, Nevada county, last Saturday, and is looking for employment in the mines of this vicinity. He has worked here before, and prefers the conditions here to mines around Nevada county. He intends to bring his family as soon as he gets settled.

Jas. Jack is here this week moving his effects from his home here to Angela. He and his family will reside in Jackson during the time he is employed in experting the books of that county.—Prospect.

A young man named Fred Fields, while running a car at the limestone quarry that supplies the Camp Seco copper mine with flux had the second finger of his right hand cut off by getting caught between the car and the track. The accident occurred last Friday. The victim came to Jackson Sunday, and the finger was amputated by Dr. Endicott.

The pupils of the Jackson Gate school, will give a basket picnic on the school grounds Saturday, June 19th. There will be a game of baseball in the afternoon.

Fred Cox, of Sacramento, the heir of wealthy family in that city, died Monday last after an illness of four days of acute gastritis. Young Cox was an athletic of state reputation, and a professional baseball player. He took a prominent part in the game at the Italian picnic on the 6th of June, being pitcher for the Sutter Creek team. He was then apparently in the best of health. He was quite a favorite with the boys, and his death at the early age of 23 is deeply regretted by all who knew him. He leaves a wife, to whom he was married only four months ago.

H. E. Potter has decided to rebuild his undertaking parlor at Plymouth place. New stock is now being received, and he is prepared to attend to any business that offers.

A sprinkling of rain fell Thursday morning, but not sufficient to cause. Much anxiety was felt concerning the big platform for dancing, which was exposed to the weather, except a coating of sawdust for protection against the sun. However it was not damaged to any extent, and canvas will be erected over it as soon as possible.

The peculiar motions of a stray horse traveling down Main street Tuesday evening attracted the attention of everyone on the street. The animal was without trappings of any kind, not even a rope. It held its head close to the ground, in such a manner that gave the outlookers the idea that the neck had been either broken or twisted out of shape. It walked unsteadily, and every moment it was expected to fall. However, it continued on, and went into the Union stable. Here a large crowd gathered out of curiosity. It did not belong to the stable, so was turned adrift again, and went across the Broadway bridge toward the Zella mine. It is rumored that the horse belonged to Ben Fuller, who is employed at the Argonaut mine, and rides to and from his home at Scottsville. It is supposed the horse had been tethered out, and had got tangled up in the rope, and in its efforts to get loose, had become seriously disabled. What became of the horse we have not learned.

A man named David Maslin is serving a term in the county jail for petty larceny. Several weeks ago he took a quantity of clothes from a cabin on the L. Oneto place, above Sutter Creek. He was detected in the act, and several shots were fired to scare him as he made his escape. He is said to be weak mentally, but has a mania for petty stealing. He is in for sixty days.

Dr. J. D. Fogarty, dentist, Jackson. Office in Kay's building, Main street. Hours from 9 a. m. till 5 p. m. Telephone, black 363.

A man named Sanders, a brakeman of the S. P. company, while proceeding from Lone to Jackson Sunday afternoon, was thrown out of the buggy and sustained severe scalp wounds. He was brought to Jackson, where his injuries were dressed by Dr. Endicott. A companion in the buggy at the time escaped without hurt.

At Mokelumne Hill Saturday evening a boy named Glover Nuner was pitched off a horse, and sustained a fracture of the right arm.

At Patoma Sunday a boy named Sexton was thrown from a horse, and received a fracture of the right arm, at the elbow. Both cases are under treatment of Dr. Endicott.

Miss Eloise Freeman, daughter of E. A. Freeman, formerly of this county, is visiting friends in Jackson, and is the guest of Mrs. Ida Peck.

Coroner H. E. Potter came over from Plymouth last Friday and held an inquest over the body of the chinawoman who was found dead in bed that morning in Chinatown. It seems the woman had been ailing for some time. She was over 50 years of age. The jury rendered a verdict of death from natural causes. There was no suspicion whatever of foul play.

From all over Amador county comes the gratifying reports of a fair average crop of hay. There will be no shortage, and consequently prices are not likely to soar skyward as was at first thought.

County clerk Huberty is now issuing the new hunting licenses for the ensuing year. They are totally different in appearance from those heretofore used. The old ones were of metal, while the new ones are of paper, something of the greenback style, only smaller. The name of the license payer is shown on the face, which of course was not the case with the tin medals. It is supposed that the change is designed to avoid or stop the practice of hunting on borrowed licenses.

A party of autoists on a touring trip in a Packard car got stalled near the Oneida mine Wednesday night. There were four in the machine at the time besides the chauffeur. They were A. P. Giannini and wife of San Mateo, and Misses Mary and Regina Cuneo, related to a Cuneo that lived in Volcano in early days. The auto

ran against some rocks, damaging the machinery so that it was disabled. A party of neighboring Italians hauled the vehicle into town by man power, and received \$20 for their pains. The auto is at Garbarini's machine shop for repairs. The tourists went up to Volcano yesterday in a rig from the livery stable.

Colored posters for the coming fourth of July celebration were issued from the Ledger office early this week, and will be scattered broadcast through the county. The sheet is 28x44 inches in size, and is the largest single sheet poster ever printed in Amador county. It is printed in red and blue ink on heavy book paper, and will compare favorably with similar character of work turned out in the large cities. The Ledger office is better equipped to do large poster work, or small posters for that matter, than any print shop in the county, and being better equipped we can afford to do such work at cheaper rates than elsewhere.

Superintendent Rainsford of the Argonaut mine is rapidly recovering from the attack of typhoid fever, from which he has been confined to his bed for the past three weeks. He is able to sit up, and expects to be able to appear outside in a short time.

The fees collected in the recorder's office for the month of May amounted to \$83. Real estate transactions in this county have been extremely light for a long time, and stagnation in this direction is anything but a healthy sign.

Reserved seats for the Masonic Band Boys concert will be on sale at Ruhsers Pharmacy next Thursday, June 24th, at 3 a. m.

Miss M. E. McCaskey, who has just completed a term of teaching in the Aetna district, left yesterday morning for Berkeley. She will probably be engaged for next term, her work having been satisfactory in every way.

Father Gleason left last Sunday for Sacramento, to attend a conference of Catholic clergy in that city.

Father Kearney returned Saturday from a two weeks' visit to Tonopah and other points in Nevada.

Mrs. Ben Fuller left this morning for British Columbia on a visit to her sister-in-law, Mrs. Bunyan.

The chinawoman found dead in Chinatown last Friday, was named You Foy, a native of China, aged 61 years. An inquest was held Saturday before the following jury: Wm. Going, A. W. Stone, Thos. Joy, C. Cademartori, L. Tubbs, T. D. Davis, Jos. Plant, W. Taylor, H. Griggs, T. P. Meilo and G. W. Andrews. The verdict gave cause of death as heart failure.

Goddess of Liberty for Fourth

A voting contest is now on, to decide who shall represent the Goddess of Liberty in the parade on the 4th of July.

To the lady receiving the largest number of votes will be given \$25 by the parade committee, towards furnishing a suitable costume for the occasion. Votes are one cent each, and can be cast at the stores of Vela & Piccardo and Wm. Tam. Contest closes June 25th at nine o'clock p. m.

This to the ladies is a golden opportunity to secure a handsome costume without cost to themselves.

The following is the standing of the contestants to date:

Birdie Lucot	300
Annie Dal Porto	210
Miss M. Prosser	150

Teachers' examination.

The semiannual examination of applicants for teacher's certificates commenced last Monday before the county board of education. There were 22 applicants before the board, only one male. The examination is not yet finished. We shall publish the result next issue.

An Old Pioneer Gone.

In the passing of William Moon, whose death occurred June 10, Amador county loses one of its oldest and most respected settlers. Deceased was born in Lancashire, England, June 5, 1833. He came to America with his parents in 1840, when but seven years of age. In 1853, in company with his brother, he crossed the plains by ox team bound for California. In 1857 he was married to Miss Mary Griswold, who survives him. Of this marriage there was born five children three girls and two boys, three of whom are living, the oldest and youngest daughters having passed away many years ago. In the spring of 1854 he settled upon the homestead two miles north of Jackson, where he lived continuously up to the time of his death. He was aged 76 years and 5 days. For the past three years he had been failing, and his death was due to a complication of disorders.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by E. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address, F. J. Cheney & Co., Toledo, O.
Sold by Druggists, 75c.
Hall's Family Pills are the best.

Baseball.

Last Sunday the Jackson team tried conclusions with the Volcano boys. It was not, as the score sufficiently shows, a very brilliant game. Still the Volcanos made a fair showing up to the eighth inning. In the ninth they seemed to go all to pieces, allowing their opponents to score 11 in that inning. The line-up and score by innings are appended as follows:

Jackson	Volcano
Forner	c
Connors	1 f
Vela	c f
Merkle	p
Love	s s
Cromer	1st b
Miller	2nd b
Arditto	r f
Boro	3rd b
Jackson	0 0 1 3 0 0 11—16
Hits	10 2 1 2 0 0 4—10
Volcano	0 2 0 0 0 0 0 1—3
Hits	0 2 0 1 0 1 1 1—7

Sore Nipples

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by Jackson Drug Store, Spagnoli Prop.

The Big Bar Toll Bridge.

The Calaveras Prospect publishes the minutes of the board of supervisors at their last week in relation to the Big Bar toll bridge as follows:

The Board at its meeting in May with the Board of Supervisors of the county of Amador at the Big Bar Toll Bridge and arrangements having been partially made in relation to the purchase of the Big Bar Toll Road and Toll Bridge by Amador and Calaveras counties.

The Board again this day meet with the Board of Supervisors of Amador county in joint session at the office of the Board of Supervisors of Calaveras county, at San Andreas.

After consultation and discussion it was decided by the joint Board of Supervisors of Calaveras and Amador counties to proceed to purchase the aforesaid Toll Bridge and Toll Road under the provisions of Sections 2800 and 2881 of the Political Code. It was agreed also that in the matter of the appointment of appraisers to appraise the valuation of said Toll Bridge and Toll Road that the supervisors of Amador should appoint two appraisers, the supervisors of Mokelumne District, Calaveras county should appoint one and the Superior Judge of Calaveras county one.

It was also agreed that for the purpose of consummating at the purchase of the aforesaid property the two boards would meet in joint session at the city of Jackson, California, on the 7th day of July, 1909.

In accordance with their agreement and upon motion the supervisors of Amador county appointed V. S. Garbarini and C. L. Culbert. Supervisor Wilson of Mokelumne District appointed Henry Schrag and Judge McSorley of Calaveras county appointed Edward Casey. Mrs. A. Gardella on behalf of herself appointed A. Ginochello, E. Marro and P. L. Cassinelli.

We do not know of any other pill that is as good as DeWitt's Little Early Risers, the famous little liver pills—small, gentle, pleasant and sure pills with a reputation. Sold by City Pharmacy, F. W. Rusher, prop.

RAINFALL.

A gentle rain commenced falling Thursday morning. Late in the afternoon it started to rain again, and continued with slight intermission through the night. It is still cloudy, with indications of more rain. This untimely precipitation is of no benefit, except to lay the dust. It has done considerable damage to the big fourth of July platform, which was left unprotected. To-day a canvas covering was spread over the floor and it is believed that with careful treatment it may be saved from permanent injury. The rainfall for the storm is as follows:

July 17	0.11
July 18	0.18
Total for week	0.29
Total for season	34.56
Same period last year	17.76

One Doctor—Only One

No sense in running from one doctor to another! Select the best one, then stand by him. No sense either in trying this thing, that thing, for your cough. Carefully, deliberately select the best cough medicine, then take it. Stick to it. Ask your doctor about Ayer's Cherry Pectoral for throat and lung troubles. Sold for nearly seventy years. No alcohol in this cough medicine. J.C. Ayer Co., Lowell, Mass.

Why try this thing, that thing, for your constipation? Why not stick to the good old reliable family laxative—Ayer's Pills? Ask your doctor if he approves this advice.

SUPERIOR COURT PROCEEDINGS

HON. F. V. WOOD, JUDGE
New Cases

C. H. McKenney, vs. M. Levaggi—Plaintiff, as receiver of the Sutter Creek State Bank sues to recover the sum of \$500 due on a promissory note dated July 25, 1906, with interest, no part of said note or interest thereupon had been paid.

C. H. McKenney, vs. John Levaggi—Suit receiver of Sutter Creek bank to recover \$500 due on a note dated July 25, 1906, with interest at 7 per cent.

Estate of D. A. Patterson—Alice Patterson petitions for letters of administration. The estate consists of personal property as follows: \$150 salary as county recorder of Amador county for the month of May, 1908. 300 shares of the capital stock of Mansfield Mining and Smelting Company; 300 shares of capital stock of the Verde Grande Copper Company; and 3195 shares capital stock of California Consolidated Mines Company; the value of same is not stated. Petitioner is the widow of deceased. June 24 set for hearing.

James A. Rickey vs. Nether Bell et al.—Suit to quiet title to a tract of land in S E 1/4 of N E 1/4, section 21, range 10 to which defendants claim some interest.

A. B. Farnham vs. A. M. Farham—Complaint filed and summons issued.

Carrie T. Segerstrom vs. Edith A. Pierson—This is a suit to determine the rights of the parties to purchase from the state of California 640 acres in section 23, 13, 24 and 25 and 26, in township 8 range 15. The complaint alleges that plaintiff filed an application in the surveyor general's office to purchase said land accompanied by the fee of \$5, and was in all respects a qualified purchaser. The land was at the time subject to sale by the state as heir land. That on December 1, 1908, defendant filed an application to purchase said land, and it is claimed by the plaintiff that the statements set forth in defendant's application are false, that she did not apply to purchase for her own benefit, but for the benefit of other parties unknown to plaintiff. Suit is therefore brought that defendants application be declared illegal and void, and that plaintiff be declared the legal and rightful applicant.

Abbie Queso vs. Frederick Queso.—Action for divorce. Complaint filed and summons issued.

HANDICAPPED.

This is the Case With Many Jackson People.

Too many Jackson citizens are handicapped with a bad back. The unceasing pain causes constant misery, making work a burden and stooping or lifting an impossibility. The back aches at night, preventing refreshing rest and in the morning is stiff and lame. Plasters and liniments may give relief, but cannot reach the cause. To eliminate the pains and aches you must cure the kidneys.

Doan's Kidney Pills cure sick kidneys and cure them permanently. The following statement should convince every Jackson reader of their efficiency.

Thomas Fowler, 1016 Fourteenth St., Sacramento, Cal., says: "I suffered so severely from pains in my back that I was unable to get about. There was a dull ache across my kidneys which prevented me from resting well and too frequent passages of the kidney secretions greatly annoyed me. I finally procured a box of Doan's Kidney pills and my kidneys have given me no trouble since using them. I am pleased to recommend this remedy to other kidney sufferers."

Rent will be charged on idle meters, and after 60 days they will be removed without notice. B. E. Letang.

Notice for Publication.—01998,

Department of the Interior,
U. S. Land Office at Sacramento, Cal.
June 16, 1909.
Notice is hereby given that George R. Fitzgerald of Volcano, Calif., who, on May 13, 1904, made H. E. No. 7693, for S E 1/4 of S W 1/4 Sec. 15, E 1/2 of N W 1/4 and S W 1/4 of N W 1/4, Section 22 Township 7 N., Range 12 E., Mount Diablo Meridian, has filed notice of intention to make final five year proof, to establish claim to the land above described, before the U. S. Commissioner for Amador county, Calif., at his office in Jackson, Cal., on the 31st day of July 1909.
Claimant names as witnesses:
M. Robinson, David Robinson, George Miller and C. P. Jordan all of Volcano, Calif.
Not coal land.
JOHN F. ARMSTRONG,
Register.

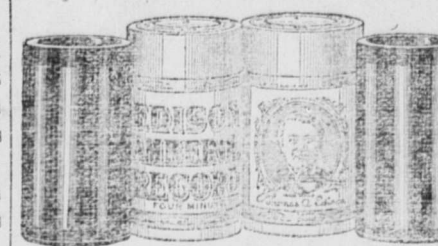

The Fourth Celebration.

Things are moving for the big celebration in Jackson July 4 and 5. The big dancing platform, 50x150 feet, behind the bank, is being rushed to completion. The first dance thereon is announced for tomorrow night. The other committees are hard at work. Three prizes will be given for the best floats. A \$25 prize is offered for the best float by societies, \$15 for second best, and a \$10 prize for the best decorated private vehicle in the procession. All the societies are requested to participate in the procession, and to compete for prizes. A boxing contest will be a feature of the 5th, to take place at 5 o'clock in the evening. W. R. Jacob of Stockton, a noted attorney, will be orator of the day; and Homer Henley, a professional singer, has been engaged to sing. The big posters will be out on Monday.

THE RECENT WALKOUT OF JACKSON MINERS

The Walking Delegates' Version Thereof.

We herewith reproduce from the Miners' Magazine—the organ of the Western Federation of Miners, published at Denver, the official history of the late abortive strike in this county. It will be read with some interest, and not a little amusement by both employes and employers:

Jackson, Calif., May 22, 1900. To the President and Executive Board of the Western Federation of Miners:

Gentlemen and Fellow Workers—The eight-hour day passed by the last legislature of the state of California went into effect on Sunday, May 9th. Here on the Mother lode, the mining companies decided upon a uniform schedule of hours which read on their notices posted: "First skip to go down at twenty-five minutes of seven in order that the men might be at place of work at seven o'clock sharp; blast at twelve o'clock; thirty minutes for lunch, blast at three thirty; first skip to leave bottom at three forty-five," therefore demanding eight hours work at the breast and that men go, come and eat lunch upon their own time. The above schedule of hours laid down by the companies most decidedly did not meet with the approval of the majority of the men, therefore they walked out.

Sunday morning, May 9th, the night shift at the Argonaut mine waited for the day shift to come on, and they all agreed that no one would go to work unless they were given the eight-hour day as per the law. Superintendent Rainsford upon seeing that the men did not start to work at tally, inquired the reason why they were not going to work, to which inquiry the men all at once attempted to explain, but being unable to get a definite statement Rainsford suggested that they go to town and hold a special meeting and select a special committee to wait upon him and present their demands. This the men proceeded to do by posting notices that a special meeting of all men working under ground would be held at Miners' Union hall at 2 p. m. They at once proceeded to look up the secretary of the union, who at that time was working in the Zeila mine, and sent word to him to come out as they desired to see him. This he refused to do. The men then requested the key to the hall for the purpose of holding a special meeting, offering to pay for same. This request the secretary, "Datson," also refused. They then waited for him to come off shift and requested that he in person come down and open up the hall for them in order that they could hold this meeting and still be refused, saying that they would have to look up the trustees and get their permission to use the hall. This was done and after considerable talking they finally prevailed upon the trustees to allow them the use of the hall. The meeting was called to order by temporary chairman, "Ben Fuller" and after much discussion a committee of nine was selected from the various nationalities working in the different mines, for the purpose of placing their demands before the superintendents of the various companies, which demands were, "an eight-hour hour day from collar to collar exclusive of thirty minutes for lunch," which would make an eight-hour and thirty-minute day from collar to collar, in other words, their interpretation of the law.

While these proceedings were taking place organizer Corra was in Campo Seco looking into the situation there, the men there being on strike over the same contention as that which arose here in Jackson. However, it was understood that the mines in Campo Seco would be indefinitely closed, and time has verified the rumor, as there are few men in Campo at this time and no indication of a resumption of operations; and upon learning of the difficulty here, Corra immediately left for this place.

The committee selected by the men waited upon the different superintendents at eight o'clock the following morning, placing before them their demands and interpretation of the law, which demand was turned down by the various companies and the counter demand made, "that the men come, go and eat lunch on their own time." The committee reported back to special meeting at 2 p. m., when Corra was present and called upon to address them, in which address he convincingly demonstrated to them the necessity of organizing if they ever expected to get what they demanded. As there were ninety men working at the Kennedy mine on that day and the success of their efforts were greatly menaced by their continuing to work, therefore

their first thought was given to devising ways and means by which they could prevail upon those men to desist from work, and to this end, they asked Corra's advice as to how to proceed in the matter, and was advised to go there in a body and peacefully ask them to desist from work and join them in this fight. This the men done and successfully obtained the consent and co-operation of all union and non-union men alike, though the former inquired by what authority they were asking them as union men, to desist from work. Corra being accosted on the street by these men, was asked whether they could be interfered with and prevented by any non-union man from going to work, to which answer was made, that the moral right was the right by which those men could ask them to desist from work. During the day there was about seventy five men taken into the union and about ninety members of this union were involved in the walkout; therefore, these men had all the right in the world to ask the other union as well as non-union men to desist from work in order to successfully carry on the fight.

Tuesday, the 11th, another special meeting was held at 10 a. m., at which executive board member Hutchinson was present and called upon to address the meeting. After pointing out the emergency which confronted them and the necessity of organization to enforce their demands, the meeting was adjourned until 2 p. m. In the meantime we proceeded to enroll those who recognized the necessity of such organization.

As there was still seventy men at the company's boarding house on the Kennedy grounds, the men were getting restless and dissatisfied and at the meeting at 2 p. m., a committee of three was appointed to proceed under escort of the sheriff to the Kennedy boarding house, with the result that all of the men in the boarding house quit work immediately and came to town, and the majority made application by initiation and reinstatement for membership in this union. At this juncture every mine was at a standstill with the exception of the hoisting engineers and skip tenders, who were left at work for the purpose of hoisting water, with the object in view of being able to arrive at an amicable adjustment of the difficulty arising from the erroneous interpretation of the law on the part of the operators. A difficulty arose, however, which prevented any settlement being arrived at, in the fact that the so-called union men with paid-up cards in their pockets, were howling that they were unjustly and forcibly prevented from going to work by the dog-eaters and non-union men at that. This fact the operators knew and therefore stood their ground.

On Friday afternoon, May 14th, another attempt was made by the good union and non-union men alike, to bring about a settlement by appointing a committee of the various nationalities, in conjunction with Hutchinson and Corra, to interview the superintendents with the purpose of compromising the differences by proposing the following schedule of hours, pending a decision as to the constitutionality of the law, to wit: "First skip to start down at seven o'clock, take full thirty minutes for lunch; first skip to start from the bottom of the shaft at 3:30 p. m. sharp, thus going one way on the companies' time and one way and lunch on the men's time," but the committee was met and stopped by guards around the Kennedy mine who refused to permit them to pass or to carry a message to the superintendent stating what they desired. The committee then attempted to reach the superintendent of the Kennedy Mining Company at his residence, but no sooner had the spokesman passed within the gate than he was commanded by two guards to stop. The committee then visited the Argonaut mine and succeeded in talking with superintendent Rainsford, but he steadfastly refused to listen to any proposition from the committee and stated that the men knew his demands which were as heretofore stated and that if they desired to concede to them they could come back to work. The committee then interviewed the superintendent of the Zeila Mining Company, who stated that he was in possession of a communication from his company, saying that if the shorter work day was put into effect, the mine would have to close. Report to this effect was made to the meeting at 2 p. m.

At this meeting there was much dissatisfaction prevailing because the strike was not official, and rumors were rife that the union and non-

union men who were taking no part in affairs, were going back to work because of this fact. There were present at this meeting over four hundred men and on being asked by Hutchinson that, since they were out and partially organized, would they stay by the strike in the event of one being called, the answer being unanimously in the affirmative, notice was given of a special meeting at 7 p. m., all member of Jackson Miners' Union No. 115 being requested to attend. After much discussion of the situation and the attitude of the English speaking men, a vote was taken on the calling of an official strike, which being unanimously in the affirmative, Board Member Hutchinson and Organizer Corra, at the time acting secretary of the union, announced that henceforth this would be an official strike of Jackson Miners' Union No. 115 of the W. F. of M., to enforce the demands of the men under the law, and pledged to the fullest extent possible, the moral and financial support of the Western Federation of Miners' the following notices being posted to this effect.

Notice.
"To Whom It May Concern:
"Having refused to grant the underground men the eight-hour day, in compliance with the state law of California and having refused to meet and discuss the differences between their employes and themselves, we, the members of Jackson Miners' Union No. 115 of the Western Federation of Miners, as a part of said employes, do hereby call an official strike against the Kennedy Mining Company, the Zeila Mining Company and the Argonaut Mining Company, operating in Amador county, California, and call upon all men to desist from work in any capacity for the above companies until such as the eight-hour day is granted them.
"This strike is called after repeated attempts on the part of the men involved to bring about a peaceable adjustment of the difficulty between their employers and themselves and the refusal of the companies to treat with them in any manner, and demanding both ways and lunch on the men's time, in contravention of the law, forces the resorting to drastic measures on the part of the men involved, for the protection of their rights and the enforcement of the law. By order of
"Jackson Miners' Union No. 115.
Tom Corra,
Acting Secretary."
"Joe F. Hutchinson,
"Executive Board Member, W.F.M.
Following the posting of this notice everything seemed to be in our favor and the men pledged themselves, with the exception of the stool-pigeons of the companies who were prior to this time officers and members of this union. These men continuously plugged against this movement and the attempt to organize the Latin-speaking men, and as a last resort, went scabbing, thereby causing a stampede which ultimately broke the backbone of the strike. To these men, native and adopted English speaking sons of the state, can be given the credit of downing the greatest opportunity of any body of men to gain for themselves what was rightfully theirs under the laws of the state. In this connection you must remember that the operators were at the mercy of the men, unorganized though they were, as was plainly shown by the superintendents coming to town and begging the men to go to work, and by invoking the coercion of commercial parasites and that of the civil authority. That they were wrong and defeated, there is no question, as the day we succeeded in pulling the men from the Kennedy boarding house, the superintendent of the Kennedy Company frankly admitted that we had them defeated. There were, however, a few men working, and Tuesday morning the men demanded that we go en masse at the two principal points for the purpose of peacefully persuading these men to desist from work. In this instance, as in previous ones, the sheriff and his office force were present, presumably anticipating trouble, but unquestionably for the purpose of blocking any effort that tended to close the mines down tight.

The attitude of the civil authority and that of the business element of the town encouraged the weakened so-called sovereign citizens, some of them carrying a paid up card at that, to start the stampede back to work, and leave the men at the mercy and dictation of the operators, and they were closely followed by a good many of the Italians; only about four Austrians deserting the ranks.
Up against such conditions and with the strike hopelessly lost through a cursed racial prejudice and fear of unity and the Latin-speaking men, the men who were willing to continue the fight for the eight-hour day, fully realized futility of continuing the struggle under the circumstances and unanimously decided to call off the strike and thus reduce the necessity of a useless expenditure of money in contending for the rights of such dumb-driven cattle as will readily,

wantonly and knowingly do the bidding of their master through an accursed racial prejudice and hatred, that is not paralleled in any country on the face of the earth. The history of this incident is a record of the most useless and disgraceful scabbing ever written or witnessed. Respectfully submitted,
JOE F. HUTCHINSON,
Executive B. M., Dist. 2.
THOS. CORRA,
Organizer, W. F. of M.

The Big Head.
is of two kinds—conceit and the big head that comes from a sick headache. Does your head ever feel like a gourd and your brain feel loose and sore? You can cure it in no time by acting on your liver with Ballard's Herbina. Isn't it worth trying for the absolute and certain relief you'll get?

RELIGIOUS ACROBATS.
Dangerous Aerial Slide Annually Performed in India.

India offers many curious things in the way of religion, and the strangest of them all is the aerial slide, which is performed annually at Kulu, in the Himalayas. At a point where there is a cliff overhanging a precipitous gorge several hundred feet in width and a hundred feet in depth a rope is made fast to the rock. The other end of this is carried across the gorge and there secured to a stake. The total length of the rope between the two points is when drawn taut 2,500 feet, and the end attached to the cliff is several hundred feet higher than that fastened on the opposite side of the ravine. Thus a slide is contrived, and it is a dangerous one to all appearance.
It is down this incline that the performer has his path. For the lofty journey a sort of saddle is provided made of wood, with holes in it, through which the rope passes. But before a start is made the whole length of the rope is wet to prevent the saddle from catching fire from the friction. The performer sits astride this seat, and to his legs are fastened bags of sand, which serve two purposes—they enable him to maintain an upright position during his lightning-like descent, and they increase the momentum. The lower end of the rope is carefully wound with bits of carpet to check the speed before the stake is reached. Without this precaution the performer would be dashed to pieces.
The terrific velocity of the descent for the first few hundred yards is shown by the stream of smoke that trails from the wake of the saddle, despite the fact that the rope has been wet. Afterward the incline diminishes somewhat, and the pace becomes correspondingly slower. By the time the goal is reached the jheri, as the performer is called, is able to come to a standstill without disaster.

This slide in the air is supposed to reveal the will of the gods as to the crops of the approaching season. If the perilous trip is accomplished in safety a plentiful harvest is assured. Naturally, therefore, every care is taken to minimize the dangers of the performance. The ceremony is of ancient origin, and those who engage in it as jheri form a small caste apart.—New York Tribune.

A MEDFORD STORY.
Legend of the Phantom Ship and Its Mad Pirate Captain.

The town of Medford, Mass., has a legend of a phantom ship beside which the Flying Dutchman is only a peaceful merchantman. The Medford story runs that a ship laden with rum and gold and silver bars put out from that place in the days when the Spanish main was infested with pirates. It was headed for a West Indian port, but got into the doldrums and was so long becalmed that water and provisions gave out, and all hands perished of thirst and starvation. When the wind came up again the ship sailed away with her ghastly crew, was seen by a buccaner, chased and overhauled.
The pirate captain made fast to his prize without firing a single shot, and, attributing the vessel's nonresistance to fear or lack of arms, he was the first man to leap on board. But the rope with which the captured ship had been carelessly lashed to his own parted under the strain of the seaway, and he found himself rapidly borne away from his comrades on what he soon discovered to be a floating coffin. A stiff breeze filled the sails of the derelict, and before his own vessel could overtake it night descended on the ocean, and the pursuing ship lost sight of it altogether. Left alone in pitch darkness on the grewsome craft, the pirate went mad with terror and, seizing the wheel, raced away before the wind and, according to the legend, was condemned to range the seas forever thus in command of his horrible prize.
Woe to the ship that encountered it scudding along by moonlight or in the lightning's glare, manned by skeletons and steered by a shouting, gesticulating madman, and when on several occasions it was sighted in the fog off Medford it was considered as the herald of storm and disaster and the loss of many ships.—New York Press.

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

The Electric Barometer—Solid Fuel for Automobiles—Steel Strengthened by Magnetism—Nature's Planting—Coast Surveys Still Incomplete—A Pedestrian Motor—Porosity of Solids—Sounds Heard by Touch.

In the novel barometer of P. B. Goldschmidt, as described to the Royal Medical Society of Brussels, the readings are taken from a galvanometer, giving much greater sensitiveness and accuracy than the ordinary instrument. A minute V-shaped carbon filament is sealed in the vacuum at the top of the ordinary barometer, and by platinum wires is connected in circuit with sensitive galvanometer and a few battery cells giving a constant current. The rise of the mercury in the tube submerges the filament to a degree that is promptly indicated by the galvanometer. The apparatus records changes of less than .004 of an inch, and the galvanometer scale is so graduated as to give the barometric pressures without calculation. The sensitiveness has led to the discovery that the atmospheric pressure is changing from second to second, indicating that great air billows are constantly passing over us.

Naphthalene as automobile fuel has given very satisfactory results in the tests of Chardon and Lion with a 45 horse-power motor truck hauling 8 tons of useful load. Gasoline was used for the first 12 minutes, when the naphthalene—crystallized, in pieces the size of a chestnut,—became melted, and was then introduced into the carburetor at a temperature of 176 deg. F., together with air heated by the escaping gases. About 20 pounds of naphthalene were used per hour, later experiments showing the running cost to be one-third to two-thirds cent per ton mile.

That magnetism affects the strength of iron and steel seems to have been proven by W. J. Crawford at the Technical Institute of Belfast, Ireland. He used bars of mild steel and wrought iron 8 inches long by 3-5 to 1 inch in diameter, part of them being kept at magnetic saturation in a solenoid, and in the testing machine the elongation of the magnetized pieces was decreased 3 to 16 per cent while the average breaking load seemed to be increased.

On April 26, 1883, the island of Krakatau, in the Strait of Sundra between Java and Sumatra, was the scene of a volcanic eruption, and half of the island was blown away in the greatest explosion known to man. The surface was changed from a beautiful tropical forest to a waste of volcanic ash and pumice, destitute of all life. The island is 12 miles from the nearest land and 22 from the nearest point of Sumatra, the most probable source of seeds, but in the quarter of a century that has elapsed Nature has restored a luxuriant vegetation, including trees 50 feet tall. The return of the plants has been a matter of such importance and interest to botanists that its story is given in a new book by Prof. A. Ernst. Wind-blown spores seem to have begun the work, and in 1886 the surface had become largely covered with blue-green algae, which were preparing a soil in which a few ferns and grasses had already taken root, while flowering plants from sea-borne seeds had begun to appear on the shore. In 1897 the species had increased to 53 seed plants and 12 higher cryptogams, portions of the ground being covered with green. Since then the progress has been marvelous, and the south side of the island is mostly a mass of green, with fruit and seeds of land-plants on the beach, a forest of coconut palms, screw-pines and figs farther inland and a jungle of grasses, reeds and vines beyond the forest. It is estimated that 39 to 72 per cent of the seed-plants have been brought by sea-currents, 10 to 19 by birds, and 16 to 3 by winds.

Even now the shores of the ocean are imperfectly known, and as many as 68 rocks and shoals dangerous to navigation were discovered in 1903 charting of seas and coasts of the globe, as reported by the hydrographer of the British Admiralty.

FOR SALE.

At Gwin Mine, Calaveras co. their stock of mining supplies, timbers, lumber, wedges, hardware, drill steel pipe fittings, etc, also 8 mules, 850 to 1100 lbs. Bargains for cash. Apply at office or write for particulars. Gwin Mine Development Co

Of these 10 were made known by vessels striking on them, 29 were found by British surveying ships, and 28 were reported by Colonial and Foreign Governments. Previously reported dangers were investigated, and 26 were dropped from the charts.

Paint for indicating heated bearings in machines is made by Tollner from equal parts of iodide of mercury and iodide of copper with enough distilled water to form a good paste. The paint turns black at 140 deg. F., returning to red on cooling.

A novel kind of roller skate devised by a tutor in the University of Upsala, Sweden, is called the tachypod, and has two large wheels, giving it the appearance of a miniature bicycle. The skates are used with the ordinary motion of walking. When the foot is pressed down, the weight depresses the joint connecting a pair of arms, thus forcing the wheels apart, and unwinding a wire cable from a reel on the rear axle. The reel, at other times running loose, engages a pawl as it is unwound, thus turning the wheel. A spring winds up the cable as the pressure is released and the two wheels are brought together, and the shifting of the weight from one side to the other alternately causes one rear wheel or the other to be continually acting as driver, the weight of the body being the source of energy. The walker wearing the apparatus is pushed along at a fair and uniform velocity, a speed about equal to that of a good bicyclist having been attained.

The densest form of matter is now understood to be neither continuous nor homogeneous, but full of holes. In a late Royal Institution lecture, Sir James Thomson showed how hydrogen can be passed into a vacuum tube through an incandescent platinum window, and the passage of

sodium through glass in a similar manner is utilized in the manufacture of high vacuum tubes as a means of absorbing the traces of oxygen that cannot be pumped out. An Italian physicist has passed hydrogen through iron even when cold.

The impulses of an alternating electric current have been heard by Joseph Rieder at Steglitz, Germany, without converting them into mechanical movement in a telephone. The inner coating of a Leyden jar is connected to one pole of an induction coil, the opposite pole being grasped by the hand, when pressing the outer metallic coating of the jar to the ear causes the ear-drum to vibrate and thus produce audible sound. This simple experiment suggests a possible method of making some deaf persons hear. The action on the ear is very different from that of the telephone, and a depressing effect shows need of caution in repeating the experiment.

Kennedy—Last week the shaft of this mine reached a depth of 3300 feet vertical. At the 3150 level they have encountered the ore body in the south drift, and every reason they have to believe that it will prove of equal richness with ore bodies above. Indeed, the mine seems to be developing on the south. The 100 stamp mill is running steadily. A number of miners were laid off for two days this week on account of repairing the east shaft.

Argonaut.—At this mine the shaft reached a depth of 3190 feet in the early part of the week. This is on the incline. A few more feet will be sunk, when the work of cutting a station will be undertaken, and the opening up the new level pushed as speedily as possible.

Pioneer flour is the best; have no other.

The Modesty of Women

Naturally makes them shrink from the indecise questions, the obnoxious examinations, and unpleasant local treatments, which some physicians consider essential in the treatment of diseases of women. Yet, if help can be had, it is better to submit to this ordeal than let the disease grow and spread. The trouble is that so often the woman undergoes all the annoyance and shame for nothing. Thousands of women who have been cured by Dr. Pierce's Favorite Prescription write in appreciation of the cure which dispenses with the examinations and local treatments. There is no other medicine so sure and safe for delicate women as "Favorite Prescription." It cures debilitating drains, irregularity and female weakness. It always helps. It almost always cures. It is strictly non-alcoholic, non-secret, all its ingredients being printed on its bottle-wrapper; contains no deleterious or habit-forming drugs, and every native medicinal root entering into its composition has the full endorsement of those most eminent in the several schools of medical practice. Some of these numerous and strongest of professional endorsements of its ingredients, will be found in a pamphlet wrapped around the bottle, also in a booklet mailed free on request, by Dr. R. V. Pierce, of Buffalo, N. Y. These professional endorsements should have far more weight than any amount of the ordinary lay, or non-professional testimonials.

The most intelligent women now-a-days insist on knowing what they take as medicine instead of opening their mouths like a lot of young birds and gulping down whatever is offered them. "Favorite Prescription" is of known composition. It makes weak women strong and sick women well.

Dr. Pierce's Medical Adviser is sent free on receipt of stamps to pay expense of mailing only. Send to Dr. R. V. Pierce, Buffalo, N. Y. 21 one-cent stamps for paper-covered, or 31 stamps for cloth-bound. If sick consult the Doctor, free of charge by letter. All such communications are held sacredly confidential.

Dr. Pierce's Pleasant Pellets invigorate and regulate stomach, liver and bowels.

For a mild, easy action of the bowels, a single dose of Doan's Regulates is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

Now Is The Time

to make up your mind to have that "Photo" taken. Don't put it off any longer—you'll never be any younger or look any better than you do right now. Call at Logan's 15 S. San Joaquin Street, the next time you are in Stockton, and let him fix you up. Then you can agreeably surprise your friends by giving them a likeness of yourself. Best workmanship—lowest cost.

Born in Iowa

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, cholera and diarrhea remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proven very successful and is constantly growing in favor.—Ennis Bros. This remedy is for sale by Jackson Drug Store, Spagnoli, prop.

CHAMBER OF COMMERCE.
The chamber of commerce has between 90 and 100 members at present. This is a gratifying starter, but not enough to accomplish much. It must be run up to over 200 members before anything important can be undertaken. There ought not to be any trouble in securing that number of members steadily on the roll. At \$1 per quarter, this would give a revenue of \$800 per year. It will be necessary to go slow at first, according to the means available. The organization is for the county at large, and not for Jackson merely. Jackson being the populous, and financial center, is the proper place for the head quarter. The boosting, however, will be for Amador county, in general, rather than Jackson in particular. Business men and others in every part of the county should join. The success of the movement means as much in proportion for other towns in the county as it does for Jackson. It is out of the question to form local boards of trade in the several towns. The expense would be too burdensome; or the income would be so small that nothing could be done. The only thing to do is to join the central body, and have a local committee for each town. It is Amador county we have to set before the great outside world as a desirable place for homeseekers and for capitalists who have money to invest in mining and other enterprises.
We have kept in the background because we have neglected to advertise our advantages; certainly not because we have no advantages to advertise. There is no spot of earth in the whole of California of equal size that offers greater inducements. We have failed to make ourselves known, and consequently have to a great extent remained unknown. The following clipping from the Alameda Times of June 11 illustrates the outside feeling in regard to the lethargy of Amador county people in neglecting to keep step in the general procession of counties toward progress: The picture is perhaps somewhat overdrawn, still there is a good deal of truth in it.
The business men of Amador county have at last organized to advertise their county. In the California days of Bret Harte Amador county was well advertised by the early day writers, including Harte, and for many years new arrivals in the Golden West went directly to Amador, Calaveras, Mariposa, Tuolumne, and these other bonanza counties which played such a prominent part in the first literature of California. Had the business men of Amador kept up the work so well begun by these pioneers in Pacific coast literature Amador would not have lapsed from public view and dropped into an obscure position from which most people are able to resurrect it only with the aid of a map. However, Amador's belated start is much better than no start at all and the early advertising of over a half-century ago will make a good foundation on which to build the new campaign of publicity.

THE HUNTING LICENSE LAW.
We notice in some of our cotemporaries a statement to the effect that it is unlawful to hunt any kind of wild animals or birds without a license. We do not know what provision of law is depended upon in support of this position. The law which has been forwarded to us by the fish and game commission, through its chief deputy, Charles A. Vogelsang, reads otherwise, as follows:
"Every person who hunts, pursues or kills any of the wild birds or animals, EXCEPTING PREDATORY BIRDS OR ANIMALS, without first procuring a license therefor is guilty of a misdemeanor."
Under this provision we should judge that the killing of coyotes, gophers, bluejays, rattlesnakes, or other harmful birds or animals is perfectly lawful at any time, whether the hunter is armed with a license or not. Furthermore, the law seems to bear out the idea that a farmer is justified in protecting his crop or property of any kind against the ravages of any sort of wild game, whether protected or not. Predatory birds or animals are not exclusively of the unprotected species.
One point seems to be settled under the present status of the law, namely, that a landowner has no right to hunt on his own land for pleasure, during the open or other season, any protected game, without first procuring a license.

FOR SALE.
The J. C. Norris property at Buena Vista is for sale on easy terms on account of sickness. The property consists of 80 acres of good land with clear title, two dwelling houses, store building, dance-hall, barn and all necessary conveniences to do business.

Women Who are Envid
Those attractive women who are lovely in face, form and temper are the envy of many, who might be like them. A weak, sickly woman will be nervous and irritable. Constipation or kidney poisons show in pimples, blotches, skin eruptions and a wretched complexion. For all such, Electric Bitters work wonders. They regulate stomach, liver and kidneys, purify the blood; give strong nerves, bright eyes, pure breath, smooth, velvety skin, lovely complexion. Many charming women owe their health and beauty to them. 50c at Spagnoli's Drug Store.

EVERY WOMAN
Covets a fresh, smooth, satiny complexion, and what satisfaction and peace of mind its possession brings. The lines of age, worry and overwork are rendered well nigh powerless by Mrs. NETTIE HARRISON'S LOLA MONTEZ CREME. A wonderful soother, healer and protector to a dry, contracted or chapped skin. Demonstrate its remarkable power in your home by obtaining a free sample and Book "SECRET OF BEAUTY AND GOOD HEALTH" at CITY PHARMACY.

Charged With Injuring Jail.
A new charge has been preferred against A. Borello, who is under sentence of 10 years in San Quentin for arson in the burning of the Summit House on Sutter hill, and held in the county jail on a writ of probable cause awaiting the outcome of an appeal to the appellate court. He was taken before justice Goldner yesterday charged with being implicated in injuring the jail in the attempted outbreak of Dominco Manzo. Manzo after the failure of the scheme, gave the whole thing away, as did also Snailham, who gave the pair the cue, and really started the work before his term of 15 days for misdemeanor expired. It is said that Borello did the filing on the iron door of the jail so as to loosen the rivets. It is intended to press the charge against Borello in case the appeal on the arson case should result in a reversal.
Manzo, convicted of arson in setting fire to the Summit house, and also charged with an attempted jail break, is getting tired of being kept in the county jail. There has been no effort on the part of his attorney to perfect his appeal, and the time has expired in which he can take an appeal except on the judgment roll. He now wants to be taken to San Quentin to start serving his sentence of twelve years, and has requested his attorney to dismiss the appeal. Manzo has no money, but it was understood that his case should be taken up on appeal the same as that of Borello. The papers in the Borello case have been prepared, and scarcely anything done in the Manzo case.

A Thrilling Rescue
How Bert R. Lean, of Cheney, Wash., was saved from a frightful death is a story to thrill the world. "A had cold," he writes, "brought on a desperate lung trouble that baffled an expert doctor here. Then I paid \$10 to \$15 a visit to a lung specialist in Spokane, who did not help me. Then I went to California, but without benefit. At last I used Dr. King's New Discovery, which completely cured me and now I am as well as ever." For lung trouble, bronchitis, coughs and colds, asthma, croup and whooping cough its supreme. 50c and \$1. Trial bottle free. Guaranteed by Spanoli's Drug Store.

Do Your Clothes Fit
Watch the men as they walk along the street, some catch your attention, some don't. It's all the way a suit fits. A well fitted garment always attracts attention. It isn't easy to fit a man, because most men are built differently. It takes skill to do it. When men's clothes don't fit the idea is conveyed that somebody is trying to save money in the wrong place. My clothes fit in every sense of the word. Talent is modied in every line. There is smartness, elegance and grace in every movement. A good suit is always an investment, not an expense. Try Wm. Ross, the tailor. Formerly Max Ladar's, Jackson, Cal.

BY SPECIAL ARRANGEMENT WITH
THE SAN FRANCISCO BULLETIN
San Francisco's Leading Daily, the
AMADOR LEDGER
Is enabled to offer old and new subscribers
Amador Ledger - Weekly, \$2 per year
The Bulletin - Daily, \$3 per year
FOR \$3.00 Per Year
This is an extraordinary offer, and may be withdrawn at any time, so we would suggest that all old subscribers in arrears pay back accounts that they may take advantage of this special combination sale.
THE BULLETIN is famous from coast to coast for its fight in defense of clean government, and is read by more people daily than the combined circulation of all other San Francisco dailies.
You will appreciate the value of this offer when you consider that any of the other San Francisco papers will cost you \$8 per year.
